

# Power Shuttle

Ergonomic Perfection

Increased worker safety due to motorized support during patient transport.

## The new standard in patient transfer

Trumpf Medical's first electric-motor shuttle for easy and simple transport of patients. The Power Shuttle was developed in cooperation with customers from France.

### Energy

- Exchangeable power supply
- 2,4 kg / 52.9 lbs light weight battery pack
- Easy access with safe lock
- Quick mobile charging station

### Innovation

- Acceleration controlled by your force – simpler than driving a car
- Finger crash save
- Emergency stop after removing hands

### Expandable

- Modular use with all Trumpf Medical system tables
- Future proof system with the latest technology

### Ergonomics

- Motorized patient transport increases worker safety
- Foldable handles for best patient access
- 1 click easy lock system
